

**PALAMPUR SCIENCE CENTRE, PALAMPUR**  
(A Unit of National Council of Science Museums)

**Activity Report for the Month of February-2023**

---

**Celebration of National Science Day**

**28<sup>th</sup> February, 2023**

In order to commemorate the discovery of Raman Effect and to make people aware about the life and works of Sir C.V. Raman; National Science Day was marked by the Palampur Science Centre on 28.02.2023 by organising various activities for school students and general visitors. On this occasion Palampur Science Centre organized a **popular science lecture**, in this lecture Project Coordinator shed light on the life and works of Sir C.V. Raman. He briefed the present audience with the life history, early childhood, education, service the discovery of the Raman Effect and subsequent Nobel prize winning by great Indian physicist. Along with it, he discussed this year's theme Global science for global wellbeing. The discussion was focused on the concurrent issues like climate change, global warming, natural disasters, pandemic and some other relevant issues. Participants put forward some of their queries and these queries were solved. The lecture was followed by an **Open House Quiz** related to the life and works of Sir C.V. Raman and Global Science for Global Wellbeing. The programme was concluded with distribution of bilingual e-certificates to the participants and prizes to the winners in the quiz.
